

How to use the Securigo Patrol System

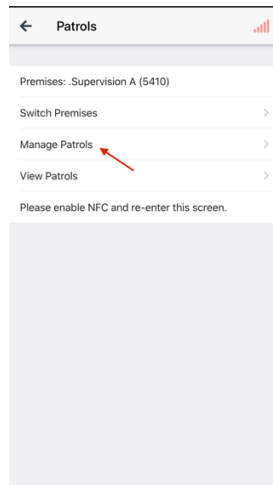

1. Tap the Patrol icon on the home screen

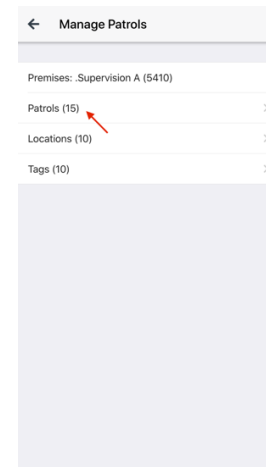

2. Click on Select Premises and enter the premises number (for testing purposes use 5410)

3. Click on Manage Patrols

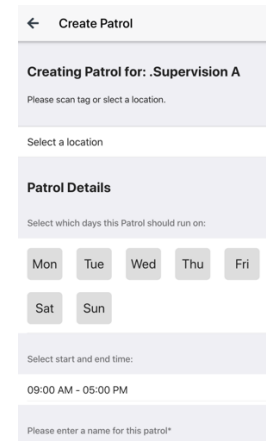

4. Then click on Patrols

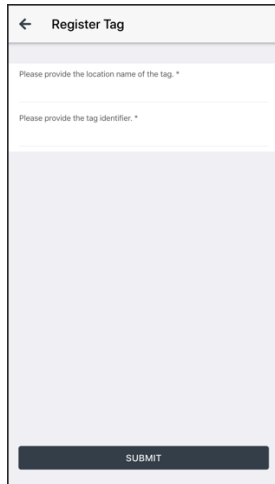

5. Click on the plus sign to launch the wizard

6. The Create Patrol wizard should appear

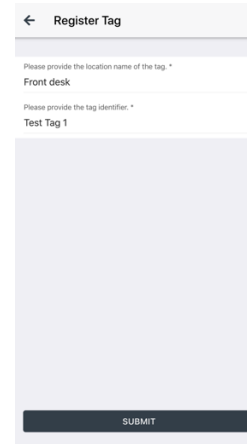

7. Scan a tag with your device to bring up Register Tag screen

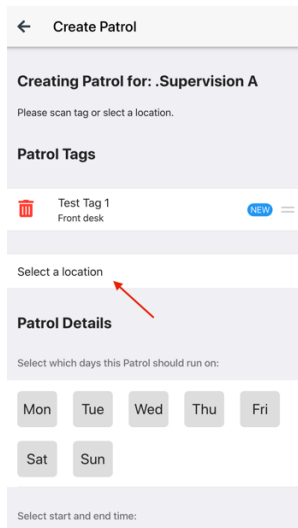

The 'Register Tag' screen features a back arrow and title at the top. It contains two input fields with placeholder text: 'Please provide the location name of the tag. *' and 'Please provide the tag identifier. *'. A large, empty light-gray rectangular area occupies the center. At the bottom is a dark gray 'SUBMIT' button.

8. Enter the location where the tag is placed and a name to identify the tag, then press submit

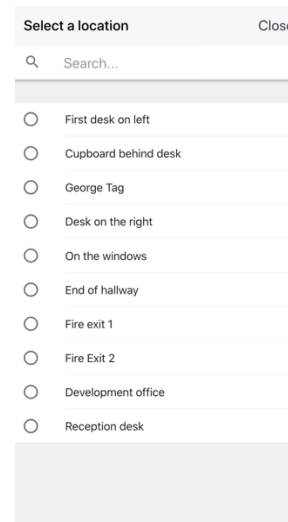

This 'Register Tag' screen is filled with data. The location field contains 'Front desk' and the identifier field contains 'Test Tag 1'. The large central area is empty. The 'SUBMIT' button is at the bottom.

9. Click on select location to choose a previously registered tag

The 'Create Patrol' screen shows 'Creating Patrol for: .Supervision A'. Below this is a section for 'Patrol Tags' displaying 'Test Tag 1' at 'Front desk' with a 'NEW' tag. A 'Select a location' prompt with a red arrow points to the 'Patrol Details' section. This section includes a prompt to 'Select which days this Patrol should run on:' followed by buttons for 'Mon', 'Tue', 'Wed', 'Thu', 'Fri', 'Sat', and 'Sun'. At the bottom is a prompt to 'Select start and end time:'.

10. Select a tag from the list

A 'Select a location' dialog box with a 'Close' button. It features a search bar and a list of locations, each with a radio button: 'First desk on left', 'Cupboard behind desk', 'George Tag', 'Desk on the right', 'On the windows', 'End of hallway', 'Fire exit 1', 'Fire Exit 2', 'Development office', and 'Reception desk'. The bottom of the dialog is a large empty light-gray area.

11. Drag the hamburger icon on the right to reorder the checkpoints

← Create Patrol
